

START-UP ASSISTANCE

Most ApTest Manager customers have success deploying the product on their own. Customers who would like support from ApTest with getting started can purchase a discounted Start-up Assistance consulting package.

Start-up Assistance includes 3 hours of support on installation, configuration, and tool integration, e.g.:

INSTALLATION

- Server H/W-S/W selection
- Installation prerequisites
- Product installation

CONFIGURATION

- Test process strategy
- Test Case Field definition
- Template definition
- Session Variable definition

TOOL INTEGRATION

- Tool selection assistance.
- Assistance with design of integrations for Problem Tracking, Revision Control, Requirements Management, and Test Automation tools.
- Does not include any custom programming by ApTest (this is a separate Professional Service).

Includes an extension of your evaluation account for up to 30 days on request.

Start -up Assistance is provided by phone and e-mail (at ApTest's discretion). All Start-up Assistance hours must be used within 60 days of purchasing ApTest Manager. Unused hours will not be refunded.

Price is \$500 USD. Order Part Number ATM-SE-011-SER. A current support contract is a prerequisite.
